

Product change notification number:  
PCN\_20160617\_CANlink GSM 5001\_EOL

Date: 17.06.2016

Title: EOL CANlink GSM 5001

Product identification: Proemion-Material-No. on Rating plate 253004028

Reason for change:

<input type="checkbox"/> Design	<input type="checkbox"/> Logistics	<input type="checkbox"/> Logistics
<input type="checkbox"/> Manufacturing Location	<input type="checkbox"/> Quality/Reliability	<input type="checkbox"/> Material
<input type="checkbox"/> Expansion of product family		<input checked="" type="checkbox"/> End of life

Change description:

The GSM-chipset used inside the CANlink GSM 5xxx product family has reached EOL-Status. It has been decided to introduce no GSM-only replacement product family, because more and more provider are planning to shutdown their GSM-Networks in the next few years. We recommend to upgrade to the CANlink mobile 5xxx product family with support of UMTS/HSPA networks.

Identification method to distinguish the change:

Proemion-Material-No. on Rating plate, depending on model.

Samples:  available  will be available soon  not applicable

Qualifiable impact on quality and reliability:

New product has completely qualified by Proemion. Special requirements have to be qualified by the customer.

Proposed first ship date\*: Available.

\* The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which inventory has been depleted. This may result in pre-changed products being shipped to the customer after this forecasted date.

Last time order for old devices\*\*: 01.12.2016

\*\* Service and repair for the old devices can be provided for up to one year after this date or the last delivering of an old device.
