<input type="checkbox"/> Expansion of product family		<input type="checkbox"/> End of life

Change description:

New design of foil on front. Changing the colour of the housing seal from blue in black.

Identification method to distinguish the change:

See appendix: Pictures of CANlink Bluetooth 2xxx with old design and new design.

Samples: available will be available soon not applicable

Qualifiable impact on quality and reliability:

The change of housing seal and foil on front has no negative impact of quality and reliability.

Proposed first ship date*: 14.03.2016

* The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which inventory has been depleted. This may result in pre-changed products being shipped to the customer after this forecasted date.

Last time order for old devices: n.a.

Proemion contact: sales@proemion.com
