Change Description:

To improve production process reliability and efficiency the CANlink mobile 3600 FAKRA connectors will be assembled in the housing without a toothed washer and with increased mounting torque. This change was successfully qualified regarding shock and vibration requirements.

Before: FAKRA connector with toothed washer

After: FAKRA connector without toothed washer

Identification method to distinguish the change:

See serial number on type label.

Qualifiable impact on quality and reliability:

No influence on form, fit, function and reliability.

- Samples: available will be available soon not applicable

Proposed first ship date¹: As soon as possible.

Last time order for devices: Not applicable.

Last time ship for devices: Not applicable.

End of Repair-Service for devices: Not applicable.

End of Support for devices: Not applicable.

253004376	After 2249018	CANlink mobile 3657 Var. PLUS+1

¹ The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.
