

Product change notification number:**PCN_202307141_CANlink_mobile_3600_Series_Cellular_Module_Firmware_Update****Date: 14.07.2023**

Title: CANlink® mobile 3600 Series Cellular Module Firmware Update

Product identification: See material number on type label.

Reason for change: Design Quality/Reliability Packaging
 Manufacturing Location Change of certification Labeling
 Expansion of product family Material Assembly
 Logistics Software update End of Life

Change Description:

The Cellular Module is shipped with Firmware Revision EG25GGBR07A08M2G_30.200.30.200 by the Manufacturer. A Downgrade to the former Module Firmware Revision is not possible with this Module Firmware Revision. The impact to the CANlink® mobile 3600 series was tested extensively, and no noticeable influence was discovered. Nevertheless, with this Module Firmware Revision the CANlink® mobile 3600 is not any longer able to register in Mobile Networks in the countries Iran and Russia. But this should have no impact to your applications, since the CANlink® mobile 3600 series has no Radio Approvals for Iran and Russia. In the appendix the impacted products are listed.

Identification method to distinguish the change:

The Cellular Module Firmware Revision EG25GGBR07A08M2G_30.200.30.200 could be read out electronically from the device. The first serial numbers of changed devices will be published later in the appendix.

Qualifiable impact on quality and reliability:

None.

Samples: available will be available soon not applicable

Proposed first ship date¹: 01.10.2023

Last time order for devices: Not applicable.
Last time ship for devices: Not applicable.
End of Repair-Service for devices: Not applicable.
End of Support for devices: Not applicable.

Proemion contact: sales-team@proemion.com

¹ The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.
