

Product Change Notification

CANlink UMTS 5xxx

Product change notification number:
PCN_20140818_CANlink_UMTS

Date: 18.08.2014

Title: Enhanced Versions of the CANlink UMTS 5xxx product family

Product identification:

Material-No. on Rating plate: 253004029, 253004040, 253004037, 253004038

Reason for change:

<input checked="" type="checkbox"/> Design	<input type="checkbox"/> Logistics	<input type="checkbox"/> Logistics
<input type="checkbox"/> Manufacturing Location	<input type="checkbox"/> Quality/Reliability	<input checked="" type="checkbox"/> Material
<input type="checkbox"/> Expansion of product family		<input type="checkbox"/> End of life

Change description:

The GPS-chipset used inside the CANlink UMTS 5xxx product family has reached EOL-Status. It has been decided to introduce the replacement product family CANlink mobile 5xxx with additional improvements and features like 6-Band UMTS support (no A1 and A2 variants anymore!), Glonass/Beidou support, Acceleration-Sensor, enhanced WakeUp capabilities, additional I/Os, etc. The mechanical drawings of the products are attached, the mechanical changes are only positions of connectors and LED's and for 5303 additional USB, M12 12contacts connector and 5th LED. More detailed specification of the CANlink mobile 5xxx will follow as soon as possible.

Identification method to distinguish the change:

The replacements parts have new productnames and Materialnumbers, see the following table:

Old Productname / Materialnumber	Replacement Productname / Materialnumber
CANlink UMTS 5201 A1 / 253004029	CANlink mobile 5201 / 253004048
CANlink UMTS 5201 A2 / 253004040	
CANlink UMTS 5302 A1 / 253004037	CANlink mobile 5303 / 253004050
CANlink UMTS 5302 A2 / 253004038	

Samples: available will be available soon not applicable

Qualifiable impact on quality and reliability:

None

Proposed first ship date*: Q4 2014

* The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, RM will continue to ship pre-changed products until a time in which inventory has been depleted. This may result in pre-changed products being shipped to the customer after this forecasted date.

Last time order for old devices: 15.09.2014
