Change Description:

To fix an issue during the production process, CANlink wireless 4000 devices will be delivered with the new firmware version 1.2.1.

Please check the release notes for more information on the new firmware.

The new firmware revision is already available for download in our Download Center at docs.proemion.com. Proemion recommends that you always update your devices to the latest released firmware version. If you have any problems or questions regarding the update, please contact our support team at support.proemion.com.

Identification method to distinguish the change:

See serial number on type label.

Qualifiable impact on quality and reliability:

No impact on form and fit. Enhanced functionality.

Samples: available will be available soon not applicable

Proposed first ship date¹: 31.08.2023

Last time order for devices: Not applicable

Last time ship for devices: Not applicable

End of Repair-Service for devices: Not applicable

End of Support for devices: Not applicable

Proemion contact: sales-team@proemion.com

¹ The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.

Appendix

List of changed products

Proemion Part Number	First Serial Number	Description
253001072	After 2327030	CANlink wireless 4001
253001073	2337001	CANlink wireless 4003
253001193	After 2238015	CANlink wireless 4001 Bridge
253001194	After 2337013	CANlink wireless 4003 Bridge
