

**Product change notification number:**  
PCN\_20180102\_CANlink\_mobile\_5xxx

**Date:** 02.01.2018

**Title:** Change of mold sealing and use of 10mm screws on CANlink mobile series 5000

**Product identification:** Typelabel with material number: See table at the appendix

**Reason for change:**  Design  Logistics  Logistics  
 Manufacturing Location  Quality/Reliability  Material

**Change description:**

Introduction of mold sealing and use of 10mm screws due to the increased 1mm overall height of the device. For variants with USB there is the dust cap for the USB connector fixed on the sealing. See drawings in the appendix.

**Identification method to distinguish the change:**

All devices with serial number greater than 1801000

**Samples:**  available  will be available soon  not applicable

**Qualifiable impact on quality and reliability:**

See qualification plan in the appendix.

**Proposed first ship date\*:** As soon as the devices on stock (old sealing) are finished, the device with new sealing will be delivered.

\* The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which inventory has been depleted. This may result in pre-changed products being shipped to the customer after this forecasted date.

**Last time order for old devices:** None

**Proemion contact:** sales@proemion.com
