Appendix: Rating plate:

Type: CANlogger

PartNo: 253003001 S/N: 0000001

Supply: 10-30V DC Rev.: 3.0.3

CAN: ISO 11898-2 galv. Isolated

MemCard: PCMCIA-SRAM / SD-Card

1/1

^{*} The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should preplared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which inventory has been depleted. This may result in pre-changed products being shipped to the customer after this forecasted date.
