Change Description:

The CANlink mobile 3600 Series devices with WLAN/Bluetooth functionality which will be shipped after June 13, 2023, will be updated to new WLAN/Bluetooth module firmware to keep regulatory conformity to Japanese MIC certification for radio devices.

Identification method to distinguish the change:

All devices shipped from 13.06.2023 with a S/N higher than the last S/N of unchanged devices mentioned in the following table. WLAN/Bluetooth module Firmware Revision 1610.2.7.0.0.39 could be read out electronically from each device.

Qualifiable impact on quality and reliability:

None.

Samples: available will be available soon not applicableProposed first ship date¹: 13.06.2023

Last time order for devices: Not applicable

Last time ship for devices: Not applicable

End of Repair-Service for devices: Not applicable

End of Support for devices: Not applicable

Proemion contact: sales-team@proemion.com

¹ The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, Proemion will continue to ship pre-changed products until a time in which the inventory has been depleted. This may result in pre-changed products being shipped to customers after this forecasted date.
