

Product Change Notification

CANlink GSM 2xxx Series

Product change notification number:
PCN_20140922_cIGSM2xxx_STD_EOL

Date: 22.09.2014

Title: EOL CANlink GSM 2xxx Series

Product identification: Material-No. on Rating plate: See Appendix.

Reason for change:

<input type="checkbox"/> Design	<input type="checkbox"/> Logistics	<input type="checkbox"/> Logistics
<input type="checkbox"/> Manufacturing Location	<input type="checkbox"/> Quality/Reliability	<input type="checkbox"/> Material
<input type="checkbox"/> Expansion of product family		<input checked="" type="checkbox"/> End of life

Change description:

The GPS-Chipset and a Flash component used inside the CANlink GSM 2xxx Series has reached EOL-Status. There is no form and function compatible successor.

Our suggestion for replacement is to use our new CANlink mobile devices. In the table below you can find the suggested successor device for your variant. For customer specific devices some one time effort for porting the old functionality or labels to the new device may be necessary.

The preliminary datasheets of the new CANlink mobile devices are attached to the PCN email, too.

Identification method to distinguish the change:

None

Samples:

<input type="checkbox"/> available	<input checked="" type="checkbox"/> will be available soon	<input type="checkbox"/> not applicable
------------------------------------	--	---

Qualifiable impact on quality and reliability:

None

Proposed first ship date*: Q4 / 2014

* The proposed first ship date is the forecasted date that a customer may expect to receive changed products. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed products on this date, RM will continue to ship pre-changed products until a time in which inventory has been depleted. This may result in pre-changed products being shipped to the customer after this forecasted date.

Last time order for old devices: See list below

RM contact: Matthias.Ruppel@rmcan.com
